

Contents of volume 45 (2001)

- James S. ABER and Volli KALM — Remote sensing of eskers from Vormsi and Väinameri vicinity, northwestern Estonia, 4: 365
- Roman Y. AIZBERG, Valery N. BESKOPYLNY, Tatiana A. STARCHIK and Tamara K. TSEKOYEVA — Late Devonian magmatism in the Pripyat Palaeorift: a geodynamic model, 4: 349
- Bogusław BAGI SKI, Jean-Clair DUCHESNE, Jacqueline VANDER AUWERA, Hervé MARTIN and Janina WISZNIEWSKA — Petrology and geochemistry of rapakivi-type granites from the crystalline basement of NE Poland, 1: 33
- Małgorzata BIERNACKA, Krzysztof ISAJENKO, Paweł LIPI SKI and Alfred AK — Radioactivity of the Baszkówka meteorite, 3: 327
- Izabela BOJAKOWSKA and Gertruda SOKOŁOWSKA — Polycyclic aromatic hydrocarbons in brown coals from Poland, 1: 93
- Izabela BOJAKOWSKA and Gertruda SOKOŁOWSKA — Polycyclic aromatic hydrocarbons in crude oils from Poland, 1: 81
- Izabela BOJAKOWSKA and Gertruda SOKOŁOWSKA — Polycyclic aromatic hydrocarbons in hard coals from Poland, 1: 87
- Jerzy BORUCKI and Marian ST PNIEWSKI — Mineralogy of the Baszkówka chondrite (L5 S1): new data on silicates, opaques and minor minerals, 3: 229
- Jerzy BORUCKI and Marian ST PNIEWSKI — Two spinel-bearing compound chondrules from the Baszkówka meteorite, 3: 281
- Ryszard DADLEZ — Holy Cross Mts. area — crustal structure, geophysical data and general geology, 2: 99
- Rajmund DYBCZY SKI, Jadwiga CHWASTOWSKA, Bo ena DANKO, Krzysztof KULISA, Halina POLKOWSKA-MOTRENKO, Zbigniew SAMCZY SKI, El bieta STERLI SKA and Zygmunt SZOPA — A study on chemical composition of Baszkówka and Mt. Tazerzait chondrites, 3: 289
- Jolanta GAŁ ZKA-FRIEDMAN, Erika R. BAUMINGER, Israel NOWIK, Nonna BAKUN-CZUBAROW, Marian ST PNIEWSKI and Jacek SIEMI TKOWSKI — Comparative Mössbauer studies of the Baszkówka ordinary chondrite and some other meteorites, 3: 319
- Gerard GIERLI SKI, El bieta GAŹDZICKA, Grzegorz NIEDŹWIEDZKI and Grzegorz PIE KOWSKI — New ornithischian dinosaur footprints in the Jurassic of Poland, 2: 205
- Jan GOLONKA and Michał KROBICKI — Upwelling regime in the Carpathian Tethys: a Jurassic-Cretaceous palaeogeographic and paleoclimatic perspective, 1: 15
- Jacek GRABOWSKI and Jerzy NAWROCKI — Palaeomagnetism of some Devonian carbonates from the Holy Cross Mts. (Central Poland): large pre-Permian rotations or strain modified palaeomagnetic directions?, 2: 165
- Krzysztof GRZYBOWSKI — Loess-like silts in the Beskid Mały and Beskid Makowski Mountains, Western Outer Carpathians, 1: 67
- Stanisław HAŁAS and Artur WÓJTOWICZ — K/Ar dating and stable isotope analysis of the Baszkówka and Mt. Tazerzait L5 chondrites, 3: 315
- Maciej KLONOWSKI, Henny A. J. van LANEN and Roel DIJKSMA — Groundwater flow and nitrate migration in a Dutch-Belgian chalk catchment; observed and future concentrations, 1: 53
- Andrzej KONON — Tectonics of the Beskid Wyspowy Mountains (Outer Carpathians, Poland), 2: 179
- Małgorzata LABUS — Comparison of computer image analysis with mercury porosimetry in sandstone porosity measurement, 1: 75
- Kazimiera LENDZION — Some biostratigraphic problems of the Cambrian in the Holy Cross and Nida areas of Poland, 2: 107
- Leszek LINDNER, Barbara MARCINIAK, Alexander F. SANKO and Galina K. KHURSEVICH — The age of the oldest Scandinavian glaciations in mid-eastern Poland and southwestern Belarus, 4: 373
- Leszek LINDNER, Leonard MASTELLA and Julia SEMIL — Evolution of the Mid- to Late Pleistocene river network in the southeastern part of the Holy Cross Mountains, 4: 387
- Jan MALEC — Sedimentology of deposits from around the Late Caledonian unconformity in the western Holy Cross Mts., 4: 397
- Andrzej MANECKI — Polish scientists in studies of extraterrestrial matter; past, present, reminiscences, 3: 211
- Seiji MARUYAMA — Oxygen-isotopic compositions of minerals from the Baszkówka chondrite, 3: 303
- Zdzisław MODLI SKI and Bronisław SZYMA SKI — The Ordovician stratigraphy and palaeogeography of the Nida-Holy Cross Mts. area, Poland — a review, 4: 417
- Zdzisław MODLI SKI and Bronisław SZYMA SKI — The Silurian of the Nida, Holy Cross Mts. and Radom areas, Poland — a review, 4: 435
- Kaja PIETSCH and Wojciech STRZETELSKI — Seismic and geochemical anomalies related to vertical migration of gas in the Radlin gas field, 1: 1
- Andrzej S. PILSKI — Inventory of Polish meteorites, 3: 219
- Andrzej S. PILSKI, Tadeusz A. PRZYLIBSKI and Paweł P. ZAGO D ON — Comparative analysis of the Baszkówka and Mt. Tazerzait chondrites: genetic conclusions based on astrophysical data and the mineralogical and petrological data, 3: 331
- Jacek SIEMI TKOWSKI — Petrography of the Baszkówka chondrite, 3: 263
- Hans-Jürgen STEPHAN — The Young Baltic advance in the western Baltic depression, 4: 359
- Marian ST PNIEWSKI and Jerzy BORUCKI — Pseudometeorite from Łapino (Pomerania, North Poland), 3: 343
- Zbigniew SZCZEPANIK — Acritarchs from Cambrian deposits of the southern part of the Łysogóry unit in the Holy Cross Mountains, Poland, 2: 117
- Wiesław TRELA — Sedimentological record of changing hydrodynamic conditions in the upper Tremadoc deposits of the Holy Cross Mountains, Poland, 2: 131
- Wiesław TRELA, Sylwester SALWA and Zbigniew SZCZEPANIK — The Ordovician rocks of Pobroszyn in the Łysogóry region of the Holy Cross Mountains, Poland, 2: 143
- Frank WLOTZKA and Jürgen OTTO — Euhedral crystals in interstitial pores of the Baszkówka and Mt. Tazerzait L5 chondrites, 3: 257
- Jerzy ZNOSKO — New data on Caledonian, Alpine-style folding in the Holy Cross Mts., Poland, 2: 155
